

### Requirements

1. A qualified patient cannot be a caregiver for another qualified patient.
2. A qualified patient and a designated caregiver may possess no more **than six (6) flowering mature plants and twelve (12) juvenile plants** at any given time.
3. A multiple patients' designated caregiver:
  - a. May possess no more than **than six (6) flowering mature plants and twelve (12) juvenile plants per qualified patient** at any given time.
  - b. Can only operate a single cultivation site (not including the patient's residence).
  - c. Needs a Commercial Cultivation License if growing for more than 3 qualified patients.
4. May only cultivate indoors and cannot be visible to the public.
5. Cannabis plants must be secured in a room with a lockable door.
6. Harvested cannabis must be stored in a secure area and accessible only to the qualified patient or designated caregiver.
7. Cannabis shall not be cultivated in the common areas of any multi-family complex.
8. DPHSS may inspect the cultivation site after giving a 24-hour notice.
9. DPHSS may revoke a permit for failure to follow P.L. 34-125.
10. Need to follow regulations regarding destruction and disposal of medical cannabis (P.L. 34-80, §10222 and §10234).

## Medical Cannabis Home Cultivation Information for Designated Caregiver

## Procedure to obtain a Home Cultivation Permit for Caregiver

1. Pick up the following forms at DPHSS:
  - a. Form 1A - Registry ID Card Application
  - b. Form 2B-Written Designation for Caregiver
  - c. Form 2D – Caregiver Registration
  - d. Form 3B – Designated Caregiver Home Cultivation Permit Application
  - e. Form 4A – Application for Medical Cannabis License
2. The Designated Caregiver must complete:
  - a. Forms 1A, 2B, 2D, and 3B
  - b. Form 4A if cultivating marijuana for more than three (3) patients outside the patients’ residences
3. Submit the forms at Central Public Health Room 225 in Mangilao, Monday to Friday 8:00 -12:00 pm (except holidays)
4. Need to bring the following:
  - a. Valid government issued photo-ID (driver’s license, Guam ID, or passport)
  - b. If a patient is a minor, the primary caregiver needs to bring one of the following:
    - i. Birth certificate
    - ii. Adoption papers
    - iii. Court order
    - iv. Guardianship papers
  - c. Proof that authorization was obtained from homeowner’s association or landowner to cultivate and store marijuana on the premises.

- d. Documents as required in forms 1A, 3B and/or 4A
5. Pay the appropriate non-refundable fees at the Cashier:
  - a. Registry ID Card = \$100
  - b. Home Cultivation Permit = \$15
  - c. Medical Cannabis License = \$10/patient
6. DPHSS shall approve or deny the application within thirty (30) calendar days.
7. The Registry ID Card is valid for one year from date of issue. It is recommended that the designated caregiver have the card with them at all times.
8. The Home Cultivation Permit is valid for one year from date of issue. Once a dispensary is operational, the permit is no longer valid.
9. A Designated Caregiver is subject to criminal and civil penalties for activities not permitted by P.L. 33-220, P.L. 34-80 and P.L. 34-125 (10 GCA. Chap 12, §122505)

### *Definitions:*

**Primary Caregiver** is a resident of Guam who is at least 21 years old who is registered with DPHSS and who has been designated by the qualified patient to assist in the medical use of cannabis. **Designated Caregiver** is a primary caregiver who assists in the cultivation of medical cannabis. **Qualified Patient** is a person of Guam who has been diagnosed by a practitioner as having a debilitating medical condition and has received written certification for the medical use of cannabis.
