2.01 Goal and Background Information

The **Department of Public Health and Social Services (DPHSS), Chief Public Health Office**, is requesting information to obtain a **Marijuana Seed to Sale Tracking System for the Medical Marijuana Program**.

The following background information is intended to help respondents understand the needs of the Department. **Public Law 33-220, also known as Joaquin (KC) Concepcion II Compassionate Cannabis Use Act of 2013, legalized the medicinal use of marijuana on Guam. The accompanying rules and regulations for the Act were recently adopted with the passage of Public Law 34-80 on February 9, 2018. The Department of Public Health and Social Services has been tasked to oversee the Medical Marijuana Program on Guam. As part of the rules and regulations, the Medical Marijuana Program is required to have a marijuana seed to sale tracking system which will allow the Department to electronically track the inventory of medical cannabis, prepared medical cannabis and medical cannabis products through each stage of processing, from seed to point of sale, disposal, and destruction. The electronic tracking system must be able to allow real time, 24-hour access to the tracking system and inventory records of all licensed medical cannabis businesses.**

2.02 Information Requesting

The Department of Public Health and Social Service is requesting information for a **Marijuana Seed to Sale Tracking System** which will allow the ability:

1. To allow real time, 24-hour access to all medical cannabis business' tracking system and inventory needs.
2. To electronically track the inventory of medical cannabis, prepared medical cannabis, and medical cannabis products through each stage of processing, from seed to point of sale, disposal and destruction of all licensed medical cannabis businesses.
