

Cervical Cancer

Awareness Month January 2012

Cervical cancer can be prevented. Get your Pap test if you are 21-years-old and when recommended by your doctor.

To find out if you are eligible for a free Pap test, call the Guam Breast and Cervical Cancer Early Detection Program (GBCCEDP) at 735-0671 or 735-0672

Don't take your health for granted . Talk to your doctor today!
