Farmer Rudy and Lida Lumampao
Agat Mayor's Office Roadside Stand

Farmer Francisco Leon Guerrero
Merizo Roadside Stand

What is the Guam WIC Farmers' Market Nutrition Program (FMNP)?

It's 100% federally funded program with two objectives:

- To provide resources to women and children who are nutritionally at risk in the form of fresh, nutritious, unprepared foods (such as vegetables and fruits) from farmers' markets; and
- To expand the awareness and use of farmers' markets and increase sales at such markets

If you have any questions call 475-0292

The Guam WIC Farmers' Market Nutrition Program is made available through the Department of Public Health and Social Services, funded by the United States Department of Agriculture and administered by the Government of Guam.

The USDA is an equal opportunity provider and employer.
