PHICC Release No. 10-009

DPHSS Holding H1N1 Mass Vaccinations – Saturday, Feb 6 at UOG Fieldhouse
DPHSS Encourages 2009 H1N1 Influenza Vaccination for General Public

The Department of Public Health and Social Services (DPHSS) will be holding another H1N1 Mass Vaccination Point of Dispensing (POD) for the general public on Saturday, February 6, from 9 am to 2 pm, at the University of Guam (UOG) Fieldhouse. The last person to be allowed entry into the POD will be accepted at 1:30 pm. Gates will close at approximately 1:30 pm.

DPHSS would like to remind all parents and guardians of children age 9 and under that a second dose of the H1N1 Influenza vaccine will be required four weeks after the first dose is received. The second dose is to ensure the effective vaccination of smaller children whose immune systems are still developing.

Children nine (9) years of age and younger who received their first dose of H1N1 Influenza Vaccine are urged to visit their primary care provider or attend the DPHSS' mass vaccination Point of Dispensing (POD) on Saturday, February 6 at the UOG Fieldhouse between 9 am to 2 pm, to receive their second dose. (Note: the last person to be allowed entry into the POD will be accepted at 1:30 pm on this day)

All PODs are open to the general public. Adults are asked to bring a picture ID and children must be accompanied by a parent or legal guardian or by an adult with written parental authorization or legal documentation.

Information about the H1N1 Influenza is also available at the following websites at www.flu.gov; Government of Guam's H1N1 website at <http://flu.guam.gov>; or Guam Homeland Security/Office of Civil Defense website at www.guamhs.org. You may also call the Immunization Program at 735-7143 or the Information Line at 735-H1N1 (4161), Monday - Friday from 8 am to 5 pm.
