

# REOPENING PLANS (CORONA VIRUS)

## — ABC Children's Center —

1. Prevent the spread of COVID-19.
  - a. Wash hands often with soap and water. If water and soap are not available use an alcohol based hand sanitizer with at least 60% alcohol.
  - b. Clean and disinfect frequently touched surfaces
  - c. Cover cough and sneezes
  - d. cover your mouth with cloth face covering when you are inside the center and going out.
  - e. Supervise young children when they use handsanitizer.
2. Monitor and Plan for Absenteeism among staff  
Coordinate with other local child care facility and reach out to substitute to determine their availability if regular staff need to go home.
3. Social Distancing Strategies.
  - a. Keep each group of children in a separate room.
  - b. Limit mixing children such as staggering playground time, special activities like art, music and exercise
  - c. Cancel or Postpone special events.
  - d. Nap time make sure the children's cot and baby crib are 6 feet apart.
  - e. Staggering arrival and drop off times.
4. Parent Drop-off and Pick-Up
  - a. Hand hygiene station should be set up at the entrance of the facility so the children can clean up their hands before they enter.
  - b. Have a child care staff to walk all the children to their classroom and at the end of the day, walk all children back to their cars.
