COVID-19 Mitigation Plan

- Educate construction workers what they need to know about Covid-19
 - COVID-19 is a respiratory illness caused by a virus called SARS-CoV-2
 - The virus is thought to spread mainly from person to person
 - List of symptoms (Fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea)
 - Between people who are in close contact with one another (within about 6 feet).
 - Through respiratory droplets produced when an infected person coughs, sneezes, or talks.
- Check workers' temperature before and after work shifts
- Limit close contact with others by maintaining a distance of at least 6 feet, when possible.
 - Limit the number of workers in small workspace areas such as job site elevators, trailers and vehicles, and spaces under construction if possible.
- Wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain, especially in areas where there is significant community-based transmission of COVID-19.
 - Cloth face coverings are NOT surgical masks or respirators and are not appropriate substitutes for them in workplaces where masks or respirators are recommended or required.
- Clean and disinfect frequently touched surfaces such as shared tools, machines, vehicles and other equipment, handrails, ladders, doorknobs, and portable toilets. Clean and disinfect frequently touched surfaces periodically throughout the shift but also:
 - At the beginning and end of every shift
 - After anyone uses your vehicle, tools, or workstation
- Limit tool sharing if possible.
- Practice proper hand hygiene. When possible, let them wash their hands regularly with soap and water for at least 20 seconds or use an alcohol-based hand sanitizer containing at least 60% alcohol.
- Explore alternative ways to promote hand hygiene if there is difficulty sourcing hand sanitizer and running water is not available on site. Some examples may include:
 - Install accessible temporary or mobile hand washing stations, making sure there is enough water, soap, and a way for people to dry their hands (e.g., paper towels, hand dryer).
 - Provide a large (5+ gallon) bucket with a lid and tap that can be used to provide water for hand washing. If this method is used, the water tap should be regularly cleaned and disinfected, and the contaminated wastewater must be collected and treated in accordance with local laws and environmental regulations. Provide fresh clean water daily.
 - Depending on the size or configuration of the job site, there may need to be multiple hand washing stations available to accommodate the workforce while maintaining social distancing, and stations may need to be restocked during the course of the day to maintain adequate hand washing supplies.

- Take steps to help prevent the spread of COVID-19 if an employee is sick.
 - Actively encourage sick employees to stay home.
 - Sick employees diagnosed with COVID-19 shouldn't return to work until the criteria to discontinue home isolation are met, in consultation with healthcare providers and state and local health departments.
- Be aware that some employees may be at higher risk for severe illness. Implement specific policies to minimize face-to-face contact for these employees or assign work tasks that allow them to maintain a distance of at least 6 feet from other workers, customers, and visitors, or to telework if possible.
- Provide training to employees on proper hand washing practices and other routine preventative measures. This will help prevent the spread of many diseases, including COVID-19.
- Explore alternative ways to promote hand hygiene if there is difficulty sourcing hand sanitizer and running water is not available on site.

DEPARTMENT OF PUBLIC HEALTH AND SOCIAL SERVICES
CONTRACTOR CLEARANCE CHECKLIST

Company Name: HAN'S CONSTRUCTION Date: 11/25/2020
 Physical Address: 388 S. MARINE CORPS DRIVE STE. 102 TAMUNING, GUAM 96913
 Name of Point of Contact: KI SUNG HAN Title: OWNER
 Email Address: mijoobookkeeping@gmail.com Phone No.: 671-888-5803
