

PW Investment Corp
A Local Small Contractor

A COVID-19 Mitigation Plan (Revised)

We are a small contractor with a 12-lot infrastructure job in Yigo and several renovation contracts. We are working in open field most of the time and in a 1 or 2-worker setting. We don't have any H-2 workers and are not sub-contractors to any major defense contractors. We only have few workers work on on-call bases.

Our preventive office policy:

Office and Jobsite policy:

- Conducting daily health checks
- Conducting a hazard assessment of the workplace
- Encouraging employees to wear cloth face coverings in the workplace, if appropriate
- Implementing policies and practices for social distancing in the workplace
- Improving the building ventilation system
- **We strictly follow CDC office and jobsite guidelines.**

Mitigation plan: A table outlining the engineering controls, administrative controls, and personal protective equipment (PPE) that employers may use to help prevent the spread of COVID-19 in the workplace. Once we detect workers' weak health condition or they test positive, we will shut down the operation and report the situation to authority. We will then immediately go into 14-day quarantine and make sure every worker is re-tested negative before coming back to work.
